SINGULAR CUSTOMS.

Bulgarian Ceremonies That Come From Pagan Rites.

The people of Varna, on the coast of the Black sea, in Bulgaria, have a singular custom which they observe at the feast of the Epiphany, which takes place on Jan. 6. The clergy, both Greeks and Bulgarians, accompanied by an immense crowd, go to the seashore, carrying with them a wooden cross. The cross is thrown by the clergy into the sea, and thereupon the strongest swimmers jump in after it. The best swimmer gets it, of course, and brings it in triumph to shore.

The Varna people have a still more singular salt water custom on the same day. After dark at night all the newly married men in the town are conducted, with bands of music and singing, to the shore and made to take three successive plunges into the icy water. They are then conducted home, where their brides, accompanied by their relatives and friends, have been awaiting them in state. After this there is feasting and merry making. These singular customs are believed to have a Pagan origin.

Photo Amateurs a Study.

One of the most interesting places in New York to study human nature is at a counter in a photographer's shop where the customers come to get amateur photographs they have had developed and printed. The anxiety they display to get the products of their "shots" would seem to be out of all proportion to the results, when you catch a glimpse of them, and their disappointment if the prints are not ready is almost as keen, apparently, as if some important business transaction had fallen through. And when they do get the prints their faces are even more interesting. The satisfaction of these amateur photographers over a set of fairly good pictures is absolutely idiotic, and their dismay at a lot of failures is tragic. The frankness of these exhibitions is not the least interesting phase of the whole thing.—New York Press.

Firing a Distress Signal.

When a ship does not carry a cannon or mortar with which she can fire distress signals, a metal socket on the bridge or poop rail is used for that purpose. Into the socket a detonating rocket is placed, and inside this is a firing tube. A lanyard is hooked on to the tube, and a man, by giving the lanyard a sharp jerk, explodes the rocket. It contains a high explosive and on leaving the rail gives a loud report and another on reaching its highest altitude. Both reports are as loud as the report of a twelve pounder cannon. The socket is slipped in the rail at an angle to prevent the rocket touching the rigging.

A Spoiled Sermon.

A clergyman was unexpectedly called upon to preach before the students of a well known college. He chose a sermon from his "barrel" and without reading it went to the college chapel. He got on splendidly until near the close, when he amazed the boys with his peroration, beginning, "And now a word in conclusion to you who are mothers."

Several Dialects.

McCall—What sort of hybrid creature is that new butler of yours? Nurtch—Why, how do you mean? McCall—I called to see you the other day, and when I asked him what time I might catch you at home he said, "At baff pawst tin, sah."—Philadelphia Press.

Quite Regular.

"The last time I saw Gayley he wasn't very—er—regular in his habits." "Oh, he's very regular now." "Well, well, I didn't think he'd ever reform." "He hasn't. His habits are all bad now."—Philadelphia Ledger.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures LaGrippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. 50c and \$1.00. Guaranteed by Barclay & Groover Drug Store. Trial bottle free."
